OUR MISSION

Every day, Balchem is delivering trusted solutions that enhance health and well-being through science. The two objectives of our sustainability strategy directly support our mission of making the world a healthier place: providing innovative solutions for the health and nutritional needs of the world, and operating with excellence as strong stewards of our employees, customers, shareholders, and communities (our stakeholders). In developing our Sustainability Framework, we worked closely with our stakeholders to identify the Environmental, Social, and Governance (ESG) topics most relevant to our business.

One of our proud accomplishments is Balchem’s impact on 1.3 billion people each year through human nutrition products, as well as people fed by animals supplemented with our vital nutrients.

Our report highlights our efforts within three pillars: People, Planet, and Profit. We welcome you to join our sustainability journey to make the world a healthier place.

Our Sustainability Framework

1.3 Billion People Reached in 2018

The total number of people impacted is calculated by the daily recommended doses of minerals, essential nutrients, and vitamins and the annual consumption of protein.
